Eia oil inventory report today

I'm not robot!

```
August 12, 2022 Conflict in Libya since 2011 civil war has resulted in inconsistent crude oil production August 8, 2022 Energy production declined by record amounts in several states in 2020 August 2, 2022 Energy production declined by record amounts in several states in 2020 August 2, 2022 Energy production declined by record amounts in several states in 2020 August 2, 2022 Energy production declined by record amounts in several states in 2020 August 2, 2022 Energy production declined by record amounts in several states in 2020 August 2, 2022 Energy production declined by record amounts in several states in 2020 August 2, 2022 Energy production declined by record amounts in several states in 2020 August 2, 2022 Energy production declined by record amounts in several states in 2020 August 2, 2022 Energy production declined by record amounts in several states in 2020 August 2, 2022 Energy production declined by record amounts in several states in 2020 August 2, 2022 Energy production declined by record amounts in several states in 2020 August 2, 2022 Energy production declined by record amounts in several states in 2020 August 2, 2022 Energy production declined by record amounts in several states in 2020 August 2, 2022 Energy production declined by record amounts and a several states in 2020 August 2, 2022 Energy production declined by record amounts and a several states are several states and a several states are several states and a several states are several states are
operational costs during Q1 2022 June 29, 2022 U.S. refinery capacity decreased during 2021 for second consecutive year June 24, 2022 EIA estimates show a decrease in global surplus crude oil pipeline projects have been completed this year June 21, 2022 EIA expects nine new Gulf
of Mexico natural gas and crude oil fields to start in 2022 June 17, 2022 EIA forecasts growing liquid fuels production in Brazil, Canada, and China through 2023 June 13, 2022 EIA expects high refinery margins to contribute to increasing fuel
production this summer May 27, 2022 Memorial Day real gasoline prices in international markets May 16, 2022 Stronger U.S. dollar contributes to higher crude oil fell in 2021 May 9, 2022 In 2021, value of energy trade
between the United States and Canada rose from 2020 lows May 6, 2022 In 2021, the value of energy trade between the U.S. and Mexico reached a nine-year high May 5, 2022 China processed record amounts of crude oil in 2021 but exported less
gasoline and diesel April 21, 2022 Nearly all new U.S. crude oil and natural gas wells are horizontal or directional April 19, 2022 EIA expects summer U.S. real gasoline and diesel prices to be the highest since 2014 March 29, 2022 The United States
imports more petroleum products than crude oil from Russia March 16, 2022 EIA expects crude oil prices higher than $100 per barrel in coming months March 10, 2022 Europe is a key destination for Russia's energy exports March 10, 2022 Europe is a key destination for Russia's energy exports March 10, 2022 EIA expects crude oil prices higher than $100 per barrel in coming months March 14, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's energy exports March 10, 2022 EUROpe is a key destination for Russia's exports March 10, 2022 EUROpe is a key destination for Russia's exports March 10, 2022 EUROpe is a key destination for Russia's exports March 10, 2022 EUROpe is a key destination for Russia's exports March 10, 2022 EUROpe is a key destination for Russia's export
million barrels of crude oil from its Strategic Petroleum Reserve March 4, 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 February 18, 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 February 18, 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 February 18, 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 February 18, 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 February 18, 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 February 18, 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 February 18, 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 February 18, 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 EIA expects U.S. petroleum trade to shift toward net imports during 2022 EIA expects U.S. petroleum trade to shift toward net imports EIA expec
high levels January 28, 2022 EIA forecasts OPEC production will grow in 2022 despite recent production outages in Libya January 27, 2022 EIA expects U.S. fossil fuel production to reach new highs in 2023 January 19, 2022 In 2021, 14 petroleum
liquids pipeline projects were completed in the United States January 1, 2022 EIA forecasts crude oil prices will fall in 2021 as driving increased January 5, 2022 Energy
prices rose more than other commodities in 2021 December 27, 2021 The U.S. exported slightly more petroleum than it imported in the first half of 2021 December 20, 2021 U.S. crude oil production fell by 8% in 2020, the largest annual decrease on record December 20, 2021 The Brent crude oil price decline on November 26 was among the largest
in years December 6, 2021 Brazil was the only South American country to increase crude oil price spreads December 2, 2021 In 2020, the value of energy trade between the United States and Canada declined November 29, 2021 Recent
legislation would reduce the U.S. Strategic Petroleum Reserve November 18, 2021 EIA forecasts crude oil prices and reducing inventories November 4, 2021 Added transnational oil pipeline capacity could reduce crude oil shipped by rail
November 3, 2021 Crude oil and petroleum liquids production in Ecuador hit a 10-year low in 2020 September 21, 2021 The U.S. exported slightly more petroleum than it imported in the first half of 2021 September 16, 2021 Hurricane Ida
disrupted crude oil production and refining activity September 8, 2021 Number of drilled but uncompleted wells declines August 21, 2021 Six U.S. states accounted for over half of the primary energy produced in 2019 August 23, 2021 New UAE-based crude oil futures contract introduced in March August 23, 2021 Associated natural gas production
declines in 2020, following three years of growth August 12, 2021 Iran's crude oil production in 2020 August 10, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 10, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 10, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 10, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 10, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 10, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 10, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 10, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 10, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 10, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 20, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 20, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 20, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 20, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 20, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 20, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 20, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 20, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 20, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 20, 2021 Texas's Midland Basin accounted for 15% of U.S. crude oil production in 2020 August 20, 2021 Texas's Midland Basin accounted for 2021 Texas's Midland Basin accou
production increases, but Brent crude oil prices remain high July 20, 2021 U.S. crude oil exports reached record levels in 2020 and remain high in 2021 July 19, 2021 United States continued to lead global petroleum and natural gas production in 2020 July 19, 2021 United States continued to lead global petroleum and natural gas production in 2020 July 19, 2021 United States continued to lead global petroleum and natural gas production in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 United States continued to lead global petroleum and natural gas production in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 U.S. crude oil exports reached record levels in 2020 July 19, 2021 U.S. crude oil exports reached record levels reached record record record record rec
13, 2021 U.S. crude oil production efficiency increased only in the Bakken region in 2020 July 8, 2021 Refinery closures decreased U.S. refinery capacity during 2020 July 6, 2021 U.S. fossil fuel consumption fell by 9% in 2020, the lowest level in nearly 30 years June 25, 2021 EIA's updated liquids pipeline database shows 19 projects moving toward
completion in 2021 June 15, 2021 Growing global production limits crude oil and natural gas in New Mexico reached new record in March 2021 EIA lowers its forecast of India's oil demand because of rising COVID-19 cases May 6, 2021 Energy production
in the United States fell by more than 5% in 2020 May 5, 2021 U.S. crude oil imports from OPEC are down, but imports from Canada remain high April 27, 2021 U.S. energy imports declined in 2020, while exports remained largely unchanged April 14, 2021 Gulf of Mexico crude oil production will increase with new projects in 2021 and 2022 March
30, 2021 U.S. gasoline prices have been rising with crude oil prices March 25, 2021 For most of 2020, China's refineries processed more crude oil, natural gas prices March 17, 2021 EIA expects crude oil prices to rise through April because of lower
OPEC production March 9, 2021 U.S. crude oil production fell by 8% in 2020, the largest annual decrease on record March 1, 2021 EIA forecasts the U.S. will import more petroleum than it exports in 2021 and 2022 February 5, 2021 EIA's liquids pipeline database
shows infrastructure changes and project statuses February 4, 2021 EIA's AEO2021 Reference case shows crude oil production plateauing after 2030 January 21, 2021 EIA expects crude oil prices to average near $50 per barrel through 2022
January 15, 2021 Fossil fuel production expected to increase through 2022 but remain below 2019 peak January 14, 2021 U.S. oil and natural gas production to fall in 2021, then rise in 2022 January 5, 2021 EIA's Weekly Petroleum Status
Report provides crude oil and refined products balances December 1, 2020 The United States briefly returned to net importer status for petroleum earlier this year November 18, 2020 The United States briefly returned to net importer status for petroleum earlier this year November 18, 2020 The United States briefly returned to net importer status for petroleum earlier this year November 18, 2020 The United States briefly returned to net importer status for petroleum earlier this year November 18, 2020 The United States briefly returned to net importer status for petroleum earlier this year November 18, 2020 The United States briefly returned to net importer status for petroleum earlier this year November 18, 2020 The United States briefly returned to net importer status for petroleum earlier this year November 18, 2020 The United States briefly returned to net importer status for petroleum earlier this year November 18, 2020 The United States briefly returned to net importer status for petroleum earlier this year November 18, 2020 The United States briefly returned to net importer status for petroleum earlier this year November 18, 2020 The United States briefly returned to net importer status for petroleum earlier this year November 18, 2020 The United States briefly returned to net important petroleum earlier this year November 18, 2020 The United States briefly returned to net important petroleum earlier this year November 18, 2020 The United States briefly returned to net important petroleum earlier this year November 18, 2020 The United States briefly returned to net important petroleum earlier this year November 18, 2020 The United States briefly returned to net important petroleum earlier this year November 18, 2020 The United States briefly returned to net important petroleum earlier this year November 18, 2020 The United States briefly returned to net important petroleum earlier this year November 18, 2020 The United States briefly returned to net important petroleum earlier this year November 18, 2020 T
flat through 2021 November 4, 2020 In 2019, the U.S. imported $13 billion of energy goods from Mexico, exported $34 billion October 28, 2020 Crude oil tanker rates are likely to remain low until global petroleum demand increases October 13, 2020 Global liquid fuels production outages have increased in 2020 October 2, 2020 Hurricane Laura shut
in more Gulf of Mexico crude oil production than any storm since 2008 September 23, 2020 U.S. crude oil exports have fallen in each month since their record high in February September 14, 2020 Fossil fuels account for the largest share of U.S.
energy production and consumption September 9, 2020 The U.S. continued to produce more light crude oil in 2019 and import less heavy crude oil September 3, 2020 U.S. energy imports and exports were nearly equal in May August 20, 2020
North Dakota crude oil production fell in May beyond natural declines August 14, 2020 Currency appreciation makes crude oil less expensive for some oil importers August 4, 2020 U.S. crude oil production in May has a record monthly decrease
July 27, 2020 Early 2020 drop in crude oil prices led to write-downs of U.S. oil producers' assets July 23, 2020 Colorado ranks seventh among states with the most energy production July 22, 2020 Hydrocarbon gas liquids spot prices are generally bound by crude oil and natural gas July 14, 2020 U.S. crude oil and natural gas production in April had
biggest monthly decreases in years July 9, 2020 Drop in petroleum demand led to rise in crude oil inventories and low refinery utilization June 25, 2020 U.S. crude oil inventories reach all-time high June 25, 2020 U.S. commercial crude oil inventories reach all-time high June 25, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories reach all-time high June 21, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization June 29, 2020 U.S. crude oil inventories and low refinery utilization and low refinery utilization and low refinery utilization and low refinery utilization and low refinery
database provides detail on U.S. petroleum infrastructure changes June 5, 2020 Canada is the largest source of U.S. energy imports June 4, 2020 Lower crude oil prices are closely, but not perfectly, connected May 20, 2020 The number of active U.S. crude oil
and natural gas rigs is at the lowest point on record May 14, 2020 EIA forecasts U.S. crude oil production to fall in 2020 and 2021 April 30, 2020 U.S. crude oil inventories are approaching record-high levels April 29, 2020 Natural gas markets remain regionalized compared with oil markets April 28, 2020 In 2019, U.S. energy production exceeded
consumption for the first time in 62 years April 27, 2020 Low liquidity and limited available storage pushed WTI crude oil futures prices below zero April 16, 2020 EIA's Weekly Petroleum Status Report provides crude oil and refined products balances March
27, 2020 Oil market volatility is at an all-time high March 23, 2020 China's crude oil imports surpassed 10 million barrels per day in 2019 March 19, 2020 As total U.S. crude oil imports from Canada have increased March 16, 2020 OPEC shift to maintain market share will cause global inventory increases and lower prices March
12, 2020 U.S. crude oil exports increased to nearly 3 million barrels per day in 2019 March 2, 2020 U.S. crude oil production increases; imports remain strong to support refinery operations February 12, 2020 The United States is projected to be a
net exporter of crude oil in two AEO2020 side cases February 3, 2020 U.S. crude oil and natural gas production increased in 2018, with 10% fewer wells January 27, 2020 EIA forecasts U.S. crude oil production will keep growing through 2021, but more slowly
January 24, 2020 U.S. crude oil production efficiency continues year-over-year improvements January 21, 2020 EIA forecasts crude oil prices were generally lower
in 2019 than in 2018 December 27, 2019 The Strait of Hormuz is the world's most important oil transit chokepoint December 18, 2019 EIA increases U.S. crude oil production forecast for 2019 and 2020 October 22, 2019 The United States now exports crude oil to more
destinations than it imports from October 16, 2019 U.S. Federal Gulf of Mexico crude oil production to continue to set records through 2020 October 3, 2019 Recent decrease in U.S. crude oil production was geographically isolated, likely temporary October 3,
2019 U.S. crude oil exports continued to grow in the first half of 2019 September 23, 2019 Saudi Arabia crude oil and gasoline prices August 23, 2019 Saudi Arabia crude oil to China, less
to the United States July 23, 2019 The Suez Canal and SUMED Pipeline are critical chokepoints for oil and natural gas trade July 17, 2019 Iran drives unplanned OPEC crude oil production surpassed 12 million barrels per day in April June 28, 2019 U.S. refinery capacity
reaches record high at the start of 2019 June 27, 2019 Colorado changes its regulatory structure for oil and natural gas production June 25, 2019 Crude oil inputs to Mexico's petroleum refineries continued to decline in 2018 June 20, 2019 The Strait of Hormuz is the world's most important oil transit chokepoint June 13, 2019 Monthly U.S. crude oil
imports from OPEC fall to a 30-year low June 3, 2019 Saudi Arabia used less crude oil for power generation in 2018 May 30, 2019 ElA's new liquids pipeline projects database shows new U.S. crude oil pipeline projects database shows new U.S. crude oil pipeline projects database shows new U.S. crude oil for power generation in 2018 May 30, 2019 ElA's new liquids pipeline projects database shows new U.S. crude oil for power generation in 2018 May 30, 2019 ElA's new liquids pipeline projects database shows new U.S. crude oil for power generation in 2018 May 30, 2019 ElA's new liquids pipeline projects database shows new U.S. crude oil for power generation in 2018 May 30, 2019 ElA's new liquids pipeline projects database shows new U.S. crude oil for power generation in 2018 May 30, 2019 ElA's new liquids pipeline projects database shows new U.S. crude oil for power generation in 2018 May 30, 2019 ElA's new liquids pipeline projects database shows new U.S. crude oil for power generation in 2018 May 30, 2019 ElA's new liquids pipeline projects database shows new U.S. crude oil for power generation in 2018 May 30, 2019 ElA's new liquids pipeline projects database shows new U.S. crude oil for power generation in 2018 May 30, 2019 ElA's new liquids pipeline projects database shows new U.S. crude oil for power generation in 2018 May 30, 2019 ElA's new liquids pipeline projects database shows new U.S. crude oil for power generation in 2018 May 30, 2019 ElA's new liquids pipeline projects database shows new liquids pipeline projects databa
refinery outages and declining inventories May 20, 2019 Venezuelan crude oil production falls to lowest level since January 2003 May 14, 2019 EIA revises its crude oil producers since 2013 May 8, 2019 U.S. energy consumption,
production, and exports reach record highs in 2018 May 3, 2019 The number of drilled but uncompleted wells in the United States continues to climb April 15, 2019 The U.S. exported 2 million barrels per day of crude oil in 2018 to 42
destinations April 9, 2019 U.S. crude oil production grew 17% in 2018, surpassing the previous record in 1970 March 28, 2019 Tight oil development will continue to drive future U.S. crude oil production march 26, 2019 Tight oil development will continue to drive future U.S. crude oil production march 28, 2019 Tight oil development will continue to drive future U.S. crude oil production march 28, 2019 Tight oil development will continue to drive future U.S. crude oil production march 28, 2019 Tight oil development will continue to drive future U.S. crude oil production march 28, 2019 Tight oil development will continue to drive future U.S. crude oil production march 28, 2019 Tight oil development will continue to drive future U.S. crude oil production march 28, 2019 Tight oil development will continue to drive future U.S. crude oil production march 28, 2019 Tight oil development will continue to drive future U.S. crude oil production march 28, 2019 Tight oil development will continue to drive future U.S. crude oil production march 28, 2019 Tight oil development will continue to drive future U.S. crude oil production march 28, 2019 Tight oil development will continue to drive future U.S. crude oil production march 28, 2019 Tight oil development will continue to drive future U.S. crude oil production march 28, 2019 Tight oil development will be used to the continue to drive future U.S. crude oil production march 28, 2019 Tight oil development will be used to the continue to drive future U.S. crude oil production march 28, 2019 Tight oil development will be used to the continue to drive future U.S. crude oil production march 28, 2019 Tight oil development will be used to the continue to drive future U.S. crude oil production march 28, 2019 Tight oil development will be used to the continue to drive future U.S. crude oil production march 28, 2019 Tight oil development will be used to the continue to the co
became a net exporter of crude oil in late 2018 February 28, 2019 Despite recent supply reduction to outpace demand February 4, 2019 More stringent marine sulfur limits mean changes for U.S. refiners and ocean vessels January
29, 2019 The United States is expected to export more energy than it imports by 2020 January 16, 2019 EIA forecasts world crude oil prices end the year lower than they began the year January 2, 2019 Energy commodity prices fell significantly in the last quarter of
2018 December 31, 2018 China surpassed the United States as the world's largest crude oil importer in 2017 December 12, 2018 For
one week in November, the U.S. was a net exporter of crude oil and petroleum products December 29, 2018 U.S. crude oil and natural gas proved reserves set new records in 2017 November 14, 2018 U.S. crude oil and natural gas productionness.
increased in 2017, with fewer wells November 1, 2018 U.S. monthly crude oil production exceeds 11 million barrels per day in August October 23, 2018 Iran has produced and exported less crude oil since sanctions announcement October 16,
2018 The changing U.S. energy trade balance is still dominated by crude oil imports October 9, 2018 The United States continues to increase production October 2, 2018 Crude oil entering Gulf Coast refineries has become lighter as
imports have declined September 24, 2018 Crude oil was the largest U.S. petroleum export in the first half of 2018 September 20, 2018 East Coast refiners receiving more domestic crude oil trade moves through the South China Sea August 23, 2018
Permian region is expected to drive U.S. crude oil production growth through 2019 August 20, 2018 The port district of Houston-Galveston became a net exporter of crude oil in April July 10, 2018 China is a key destination for increasing U.S. energy exports June 26,
2018 EIA now publishes petroleum export data by U.S. region of origin and destination country June 22, 2018 Oil company additions to proved reserves in 2017 were the highest since 2013 June 14, 2018 Development of Alaska's ANWR would
increase U.S. crude oil production after 2030 June 4, 2018 EIA reports track U.S. crude oil production statistics and trends May 16, 2018 U.S. Gulf Coast port limitations impose additional costs on rising U.S. crude oil exports May 10, 2018 EIA reises crude oil, gasoline price
forecasts for 2018 May 2, 2018 U.S. imports of Canadian crude oil production to continue at record highs through 2019 April 11, 2018 U.S. crude oil production growth projected to be led by light, sweet crude oil April 4.
2018 U.S. production of crude oil grew 5% in 2017, likely leading to record 2018 production March 15, 2018 U.S. crude oil exports increased and reached more destinations in 2017 March 14, 2018 The value of U.S. energy exports to Mexico exceeded
import value for third year in a row March 13, 2018 Venezuela's crude oil production declines amid economic instability March 12, 2018 S&P 500 implied volatility briefly surpassed that of crude oil production February 21, 2018 Recent legislation mandates
additional sales of U.S. Strategic Petroleum Reserve crude oil February 15, 2018 U.S. proved reserves remained unchanged February 15, 2018 U.S. proved remained unchange
oil importer in 2017 February 1, 2018 U.S. monthly crude oil production exceeds 10 million barrels per day, highest since 1970 January 30, 2018 Hydraulically fractured horizontal wells account for most new oil and natural gas wells January 30, 2018 Hydraulically fractured horizontal wells account for most new oil and natural gas wells January 30, 2018 Hydraulically fractured horizontal wells account for most new oil and natural gas wells January 30, 2018 U.S. crude oil exports increased following hurricane-related refinery disruptions January 18, 2018
EIA expects total U.S. fossil fuel production to reach record levels in 2018 and 2019 January 11, 2018 EIA forecasts mostly flat crude oil prices increased in 2017, and Brent-WTI spread widened December 14, 2017 Production from offshore pre-salt oil deposits has
increased Brazil's oil production December 1, 2017 United States, Canada, and Mexico launch North American Energy Information website November 28, 2017 Transportation constraints and export costs widen the Brent-WTI crude oil price
spread November 14, 2017 Russia exports most of its crude oil production, mainly to Europe November 1, 2017 Widening Brent-WTI price spread unlikely to change East Coast crude oil supply October 16, 2017 U.S. crude oil production expected to
increase through end of 2017, setting up record 2018 October 2, 2017 U.S. federal government energy costs at lowest point since fiscal year 2004 September 21, 2017 Changing quality mix is affecting crude oil price differentials and refining decisions August 28, 2017 Crude oil and natural gas production in Texas and Oklahoma's Anadarko Region is
growing August 18, 2017 The Danish and Turkish Straits are critical to Europe's crude oil and petroleum trade chokepoint, links the Indian and Pacific Oceans August 1, 2017 Three important oil trade chokepoints are located around the Arabian Peninsula August 1, 2017 Maritime chokepoints are
critical to global energy security July 25, 2017 U.S. crude oil production forecast expected to average about $50 per barrel through 2018 July 7, 2017 Energy commodity prices declined more than other commodities in the first half of 2017 June 27, 2017 U.S. exports of
crude oil and petroleum products have more than doubled since 2010 June 15, 2017 Global oil markets expected to tighten in third quarter 2017, then loosen through 2018 May 9, 2017 The API gravity of crude oil produced in the U.S. varies
widely across states April 14, 2017 More Chinese crude oil imports coming from non-OPEC countries April 11, 2017 U.S. crude oil imports increased in 2016 March 31, 2017 Total U.S. energy production falls in 2016 after six consecutive years of
increases March 28, 2017 U.S. crude oil exports went to more destinations in 2016 March 20, 2017 Despite growth late in the year, U.S. crude oil production decreased in 2016 March 20, 2017 U.S. crude oil exports went to more destinations in 2016 March 20, 2017 U.S. crude oil exports went to more destinations in 2016 March 20, 2017 U.S. crude oil exports went to more destinations in 2016 March 20, 2017 U.S. crude oil exports went to more destinations in 2016 March 20, 2017 U.S. crude oil exports went to more destinations in 2016 March 20, 2017 U.S. crude oil exports went to more destinations in 2016 March 20, 2017 U.S. crude oil exports went to more destinations in 2016 March 20, 2017 U.S. crude oil exports went to more destinations in 2016 March 20, 2017 U.S. crude oil exports went to more destinations in 2016 March 20, 2017 U.S. crude oil exports went to more destinations in 2016 March 20, 2017 U.S. crude oil exports went to more destinations in 2016 March 20, 2017 U.S. crude oil exports went to more destinations in 2016 March 20, 2017 U.S. crude oil exports went to more destinations in 2016 March 20, 2017 U.S. crude oil exports went to more destinations in 2016 March 20, 2017 U.S. crude oil exports went to more destinations of the European Company (Inc.).
March 1, 2017 Canada is the United States' largest partner for energy trade February 24, 2017 U.S. crude oil imports from Saudi Arabia and Iraq recently increased, but may decline soon February 21, 2017 U.S. export value more
than twice import value in 2016 January 26, 2017 Strategic Petroleum Reserve sales expected to start this month January 25, 2017 Global crude oil prices expected to tighten through 2018 January 4, 2017 Crude oil prices expected to tighten through 2018 January 4, 2017 Crude oil prices increased in 2016, still below 2015
averages December 15, 2016 U.S. oil and natural gas proved reserves declined in 2015 because of lower prices December 9, 2016 U.S. crude oil production in 2015 was the highest since 1972, but has since declined November 1, 2016 U.S. energy
production, consumption has changed significantly since 1908 October 27, 2016 Low tanker rates are enabling more long-distance crude oil output in 2015 October 24, 2016 Short positions in U.S. crude oil futures held by producers, merchants at nine-
year high October 21, 2016 U.S. crude oil imports increase during first half of 2016, the first increase since 2010 October 11, 2016 On Thursday, EIA's weekly crude oil inventory will be presented without lease stocks September 2, 2016 Gasoline prices prior to Labor Day lowest in 12 years August 18, 2016 Crude oil disruptions in Nigeria increase as
a result of militant attacks August 16, 2016 U.S. crude oil exports are increasing and reaching more destinations August 3, 2016 Crude-by-rail volumes to the East Coast are declining August 1, 2016 New EIA website spotlights key drivers of petroleum
 oroduct prices July 19, 2016 India continues developing its strategic petroleum reserve as its oil imports grow July 11, 2016 EIA projects rise in U.S. crude oil and other liquid fuels production beyond 2017 June 23, 2016 Panama Canal expa
to significantly change crude oil, petroleum product flows June 22, 2016 U.S. crude oil storage capacity utilization rises even as storage capacity utilization rises even as storage capacity and biodiesel May
23, 2016 United States remains largest producer of petroleum and natural gas hydrocarbons May 10, 2016 Crude oil volatility decreases as prices rise from early 2016 levels May 6, 2016 Recent U.S. imports of oil tend to be heavier than domestic production May 3, 2016 Declining energy prices lower the cost of living April 20, 2016 Expected
decrease in Lower 48 oil production is partially offset by rising GOM output April 18, 2016 Total U.S. energy production increases for sixth consecutive year April 12, 2016 Wells drilled since start of 2014 provided nearly half of Lower 48 oil production in
2015 March 15, 2016 Hydraulic fracturing accounts for about half of current U.S. crude oil production March 11, 2016 Crude oil shipments by rail from Midwest to coastal regions decline, and is now below its year-ago level February 18, 2016 Oil production in federal Gulf of Mexico projected to
reach record high in 2017 February 12, 2016 New EIA data revise Oklahoma's oil production up by 100,000 barrels per day February 4, 2016 High inventories help push crude oil prices to lowest levels in 13 years January 21, 2016 Oman is the largest non-OPEC oil
producer in the Middle East January 19, 2016 Iran's petroleum production expected to increase as sanctions are lifted January 14, 2016 U.S. average gasoline prices to remain relatively low through 2016 and 2017 January 7, 2016 U.S. gasoline prices in 2015 were
lowest since 2009 January 6, 2016 Crude oil prices started 2015 relatively low, ended the year lower December 11, 2015 Mexican crude oil shipments to Europe and Asia are rising as U.S. imports fall December 9, 2015 New legislation affects U.S. Strategic Petroleum Reserve December 3, 2015 Crude oil storage and capacity have increased in
Cushing, Oklahoma and U.S. Gulf Coast December 1, 2015 EIA expands monthly reporting of crude oil production with new data on API gravity November 12, 2015 As total U.S. crude oil imports fall, Canada's import supply share rises October 9,
2015 With increased regulation, continued decline in residual fuel oil demand is expected October 1, 2015 July petroleum data show challenges in the reporting of processed condensate exports September 22, 2015 U.S. Gulf of Mexico share of
global active offshore rigs declines since 2000 September 10, 2015 Crude oil swaps with Mexico could provide economic and environmental benefits September 2, 2015 Effects of removing U.S. crude export restrictions depend on price, resource
assumptions August 31, 2015 EIA improves monthly reporting of crude oil prices August 24, 2015 Reduced offshore share in U.S. oil and natural gas production lowers risk from hurricanes August 24, 2015 Growing global liquids inventories reflect lower crude oil prices August 19, 2015 EIA lowers crude oil price forecast through 2016 August 13,
2015 Nuclear accord creates potential for additional crude oil August 10, 2015 Rail helps make Midwest a net shipper of crude oil August 7, 2015 U.S. refineries are running at record-high levels August 10, 2015 Russia is world's largest producer of crude oil and lease condensate July 23, 2015 Average diesel retail price below
gasoline price for first time in six years July 15, 2015 In Rocky Mountain region, increased crude production is being shipped by pipeline, rail July 10, 2015 U.S. refinery capacity reaches 18 million barrels per day June 24, 2015 Under sanctions, Iran's
crude oil exports have nearly halved in three years June 22, 2015 U.S. crude oil production growth helps reduce Gulf Coast imports June 17, 2015 Refiner margins unable to fully offset low upstream earnings for integrated oil companies June 16, 2015 EIA's mapping system highlights energy infrastructure across the United States June 12, 2015 Oil
exploration in the U.S. Arctic continues despite current price environment June 9, 2015 Crude oil production falls June 8, 2015 Increases in U.S. crude oil production are predominantly light, sweet crude
June 2, 2015 Crude oil adjustment balances independently developed supply and disposition components May 7, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 7, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 7, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 7, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 7, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 7, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 7, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 7, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 8, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 8, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 8, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 8, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 8, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 8, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 8, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 8, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 8, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 8, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 8, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 8, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 8, 2015 Low crude oil prices, increased gasoline demand lead to high refiner margins May 8, 2015 Low crude oil prices, increased gasoline demand lead to high ref
refinery supply in February April 30, 2015 Energy resource permanent funds vary by purpose and state April 24, 2015 EIA report highlights top 100 U.S. oil and natural gas fields April 21, 2015 Increasing domestic production of crude oil reduces net
petroleum imports April 7, 2015 U.S. remained world's largest producer of petroleum and natural gas hydrocarbons in 2014 March 31, 2015 New EIA monthly data track crude oil movements by rail March 30, 2015 U.S. oil production growth in 2014 was largest in more than 100 years March 25, 2015 Upstream capital expenditure declined 12% years.
over-year in fourth-quarter 2014 March 23, 2015 Crude oil storage at Cushing, but not storage capacity utilization rate, at record level March 4, 2015 U.S. crude oil storage capacity utilization now up to 60% March 3, 2015 Oil production in federal
Gulf of Mexico expected to continue increasing February 10, 2015 EIA tracking tool shows light-sweet crude oil imports to Gulf Coast virtually eliminated February 3, 2015 Currency depreciation against the dollar affects oil importers and exporters
differently January 15, 2015 Regional refinery trends evolve to accommodate increased domestic crude oil price uncertainty have increased domestic crude oil price declines than most
nonenergy commodities in 2014 December 12, 2014 Despite lower crude oil prices, U.S. crude oil production expected to grow in 2015 December 1, 2014 World oil transit chokepoints critical to global energy security November 17, 2014 Crude oil
and lease condensate production at highest volume since 1986 November 13, 2014 U.S. gasoline prices move with Brent rather than WTI crude oil October 31, 2014 Crude exports and re-exports continue to rise; some volumes sent to
Europe and Asia October 28, 2014 Benchmarks play an important role in pricing crude oil October 10, 2014 Net energy imports as share of consumption at lowest level in 29 years October 8, 2014 Saudi Arabia uses largest amount of crude oil for power
generation since 2010 September 19, 2014 Russia looks beyond West Siberia for future oil and natural gas growth August 25, 2014 Rail deliveries of U.S. oil continue to increase Mexico's long-term oil production by 75% August 21, 2014 Average Brent crude oil prices trade within $5 per barrel
range for 13 months in a row August 8, 2014 August differentials offer insight into Aramco's oil prices drive projected enhanced oil recovery using carbon dioxide July 24, 2014 U.S. petroleum refineries running at record levels July 8, 2014 Wyoming, Gulf of
Mexico dominate fossil fuels production on federal and Indian lands July 7, 2014 Production of fossil fuels from federal and Indian lands fell in 2013 July 2, 2014 A perspective on U.S. gasoline prices heading into Fourth of July weekend July 1, 2014 Worth Dakota and Texas now provide nearly half of U.S. crude oil production of fossil fuels from federal and Indian lands fell in 2013 July 2, 2014 A perspective on U.S. gasoline prices heading into Fourth of July weekend July 1, 2014 Worth Dakota and Texas now provide nearly half of U.S. crude

gas hydrocarbons in 2013 August 29, 2013 Summer maintenance affects North Sea crude oil benchmark prices August 5, 2013 Spread narrows between Brent and WTI crude oil benchmark prices August 1, 2013 Proved reserves of crude oil and natural gas in the United States up sharply in 2011 July 29, 2013 Natural gas liquids prices trend
down since the start of 2012 June 28, 2013 Price difference between Brent and WTI crude oil narrowing June 14, 2013 U.S. crude oil production since 2010 May 15, 2013 Mexico Week: Crude oil moving north, products moving south
characterizes U.S.-Mexico trade April 22, 2013 This year's gasoline price increase not unusual April 19, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 16, 2013 January 2013 crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers highest since 1997 April 10, 2013 Concentration of U.S. crude oil imports among top five suppliers
2012 April 4, 2013 The South China Sea is an important world energy trade route April 3, 2013 U.S. crude oil price differential to WTI narrows over
last 14 months March 18, 2013 North Dakota oil production reaches new high in 2012, transported by trucks and railroads February 28, 2013 U.S. crude oil production tops 7 million barrels per day, highest since December 1992 February 28, 2013 Why have gasoline prices risen since the start of the year? February 19, 2013 Gulf Coast crude stocks
generally fall sharply in December because of inventory taxes February 7, 2013 EIA begins posting daily energy prices on Today in Energy webpage February 30, 2013 Rail traffic reflects more oil production, less coal-fired electricity generation January 30, 2013 Rail traffic reflects more oil production, less coal-fired electricity generation January 30, 2013 Rail traffic reflects more oil production, less coal-fired electricity generation January 30, 2013 Rail traffic reflects more oil production, less coal-fired electricity generation January 30, 2013 Rail traffic reflects more oil production, less coal-fired electricity generation January 30, 2013 Rail traffic reflects more oil production, less coal-fired electricity generation January 30, 2013 Rail traffic reflects more oil production, less coal-fired electricity generation January 30, 2013 Rail traffic reflects more oil production, less coal-fired electricity generation January 30, 2013 Rail traffic reflects more oil production, less coal-fired electricity generation January 30, 2013 Rail traffic reflects more oil production, less coal-fired electricity generation January 30, 2013 Rail traffic reflects more oil production, less coal-fired electricity generation January 30, 2013 Rail traffic reflects more oil production and less coal-fired electricity generation and less coal-fired e
risks focus attention on supply of Venezuelan oil to the United States January 11, 2013 2012 Brief: Retail gasoline prices remain near 2011 levels January 7, 2013 2012 Brief: Coal and mid-continent crude oil prices declined during 2012 December 13,
2012 Energy Perspectives: For most fuel sources, domestic production has been increasing December 4, 2012 U.S. monthly crude oil production reaches highest level since 1998 November 28, 2012 Canada Week: Canada is the leading supplier of crude oil to the United States November 8, 2012 Non-OPEC oil supply outages remain above year-ago
level October 12, 2012 New application of existing techniques in old fields helps Russia increase oil production September 28, 2012 Increases in oil prices affect broader measures of inflation September 27, 2012 Iraqi crude oil production
approaching highest level in decades September 26, 2012 Attributes of crude oil at U.S. refineries vary by region September 11, 2012 Pad drilling and rig mobility lead to more efficient drilling September 12, 2012 Strait of Hormuz is chokepoint for 20% of world's oil August 29, 2012 Hurricane Isaac affects U.S. Gulf Coast energy infrastructure August
15, 2012 North Dakota crude oil production continues to rise August 13, 2012 Estimated U.S. gasoline consumption low compared to five-year average August 7, 2012 EIA has updated Gulf of Mexico energy statistics August 2, 2012 U.S. proved
reserves increased sharply in 2010 July 26, 2012 Rail deliveries of oil and petroleum products up 38% in first half of 2012 July 18, 2012 April 2012 sets U.S. monthly record for distillate net exports July 16, 2012 Crude oils have different quality characteristics
July 10, 2012 Rising production in the Permian basin July 5, 2012 Crude oil distillation and the definition of refinery capacity June 28, 2012 AEO2012 considers three cases for the future of world oil prices June 21, 2012 North American spot crude oil benchmarks likely
diverging due to bottlenecks June 15, 2012 Working crude oil storage capacity at Cushing, Oklahoma rises June 8, 2012 U.S. crude oil production in first quarter of 2012 at lowest level since 2008 April 23, 2012 Eagle Ford oil and natural gas well starts rose sharply in
first quarter 2012 April 20, 2012 What are natural gas liquids and how are they used? April 17, 2012 Williston Basin crude oil to natural gas continues to increase April 10, 2012 U.S. imports of Nigerian crude oil have continued to decline in 2012 April 6, 2012
Regional differences for cost of crude oil to refiners widened in 2011 April 5, 2012 Spot crude prices near 12-month low April 4, 2012 Cushing crude oil inventories rising in 2012 March 28, 2012 On a euro basis, Brent crude oil spot price surpasses prior record high March 27, 2012 Nearly 69% of
U.S. crude oil imports originated from five countries in 2011 March 26, 2012 Gasoline prices rise due to increased crude oil imports drop to lowest level since 1999 as domestic oil production rises March 14, 2012 Five states accounted for about
56% of total U.S. crude oil production in 2011 March 7, 2012 U.S. petroleum product exports exceeded imports in 2011 for first time in over six decades March 1, 2012 Review of developments in crude oil and product markets over the past two months February 29, 2012 WTI discount to Brent and premium to Bakken both rising in early 2012
February 14, 2012 Retail gasoline prices in the Rocky Mountains fall as U.S. average prices rise February 8, 2012 Tight oil, Gulf of Mexico deepwater drive projected increases in U.S. crude oil production February 8, 2012 PADD regions enable regional analysis of petroleum product supply and movements January 26, 2012 Domestic supply of liquid
fuels projected to increase, resulting in fewer imports January 25, 2012 From 1980 to 2010, most regions contributed to growth in global crude oil averages over $100 per barrel in 2011 January 9, 2012 2011 Brief: Energy commodity price
trends varied widely during 2011 January 4, 2012 The Strait of Hormuz is the world's most important oil transit chokepoint December 5, 2011 Rail delivery of crude oil and petroleum products rising November 3, 2011 Trends in Eagle Ford
drilling highlight the search for oil and natural gas liquids November 2, 2011 Bakken formation oil and gas drilling activity mirrors development in the Barnett October 21, 2011 Recent gasoline and diesel prices track Brent and LLS, not WTI October 24, 2011
Cross-market relationships strengthened in the third quarter of 2011 October 7, 2011 Gulf Coast oil and natural gas production recover after Tropical Storm Lee October 3, 2011 Summer 2011 gasoline price review September 21, 2011 United Kingdom natural gas and oil production continues decade-long decline September 14, 2011 Growth slows in
U.S. ethanol production and consumption September 7, 2011 U.S. exports of petroleum products increase as markets become more globally integrated September 6, 2011 EIA updates mapping tool relating hurricane path to energy infrastructure August 24, 2011 Crude oil
movements from the Midwest to the Gulf Coast on the rise August 22, 2011 Recently, S&P 500 Index and WTI crude oil futures price movements tracked each other June 29, 2011 January 2011 U.S. refining capacity was the highest in 29 years June 24, 2011 International Energy Agency members release strategic petroleum stocks June 23, 2011 EIA
provides new information on crude oil storage at Cushing, Oklahoma June 21, 2011 EIA forecasts increased oil demand, need for additional supply from OPEC producers in 2011 June 17, 2011 EIA highlights key factors in new energy and financial markets web page June 14, 2011 Canada is the United States' leading crude oil supplier June 3, 2011 Is
the seasonal gasoline price peak behind us? June 2, 2011 An introduction to crack spreads May 27, 2011 Domestic oil price paths May 9, 2011 U.S. oil rig count overtakes natural gas rig count April 20, 2011 Price ratio of crude oil to
natural gas increasing April 13, 2011 The outlook for transportation fuel markets this summer April 12, 2011 Retail prices: diesel outpaces gasoline April 8, 2011 January 2011 gasoline demand reduced by snowy weather March 30, 2011 Effects of crude oil supply disruptions: how long can they last? March 28, 2011 Liquid fuels production in Middle
Eastern and North African countries March 14, 2011 Crude oil and condensate production rises at Bakken and other U.S. shale plays March 11, 2011 What we pay for in a gallon of regular gasoline March 9, 2011 Growth in liquids production puts Brazil on world energy stage March 7, 2011 Libyan supply disruption may have both direct and indirect
effects March 2, 2011 Maritime chokepoints critical to petroleum markets March 1, 2011 Gasoline prices — second largest one-week increase since 1990 February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 28, 2011 WTI-Brent crude oil price spread has reached unseen levels February 29, 2011 WTI-Brent crude oil price sprea
gasoline exports hit all-time high in November 2010 Have a question, comment, or suggestion for a future article? Send your feedback to todayinenergy@eia.gov
